

## A Bridge to the Future

Many years from now in a future that will look very different from today, the Ebury Bridge community will unearth the 2024 time capsule of Ebury Bridge! What would they find out about Ebury today, our local history, our stories, what we do for leisure, how we travel and the way we communicate? To young residents of Ebury, find out how you can send a message from the bridge to the future! Read more on page 2.

## Do not open until....

In collaboration with Bouygues UK, Ebury Residents and St Barnabas School we're bringing together a collection of drawings, photographs, poems and objects that describe Ebury life for an Ebury time capsule!

Year 6 pupils at St Barnabas have begun getting hands on, with a selection of drawings and artworks on themes such as the history of St Barnabas School, what activities they do in their spare time and their favourite foods.

If you're a young person of Ebury we would like you to get involved either by:

- Capturing your photographs of what's special to you about the local area.
- Writing a letter to your future self about what your hopes are for the future and what you would like the future to look like.

You can send your item to [eburybridge@westminster.gov.uk](mailto:eburybridge@westminster.gov.uk) or bring it to our Ebury Edge office during July and August on Wednesdays between 10am and 5pm.

Further updates on the time capsule and how to be involved in its ceremony will feature in our upcoming newsletters.

## Works at Bucknill and Doneraile

Refurbishment of empty flats for temporary housing needs is being carried out by the company Axis. Works are due to complete in end of July at Bucknill and end of August at Doneraile.

During the works there will be some noise disruption, and this will be minimised as much as possible by the team. If you have any questions or need to speak to the team about the works, you can visit Axis in their temporary office at at number 32 Doneraile. You can also call the site managers Daniel Cunningham (07957 449 374) or Carl Sim (07534 859 174).
